

win with

empathy

Global Talent Trends | North America | Most employees (63%) believe their organization does not effectively balance economics and empathy when making decisions. Leading companies listen intently to their people and show they care by nudging them towards brighter futures.

Focus on futures

Work together to ensure people thrive now and in the future

87% of executives agree that the purpose of an organization should extend beyond shareholder primacy

But only **36%** of organizations are delivering on this today

56% of employees feel at risk of burn out this year

Sense with science

See ahead by augmenting AI with human intuition

Use of predictive analytics has increased (from 9% in 2016 to 53% today)

Just **9%** of companies use metrics to make buy, build, borrow decisions

And only **59%** use metrics to identify who is at risk of leaving

Race to reskill

Transform the workforce by reskilling for a new world economy

HR leaders' **#1** transformation challenge is change resistance

According to executives, only 40% of the workforce is able to adapt to the new world of work

But 84% of employees say they are ready to learn new skills

Energize the experience

Inspire and invigorate people by redesigning their work experience

Just **1%** of HR Teams believe they deliver an exemplary employee experience today

But **53%** of companies are redesigning the organization to become more people-centric

Energized employees are **5x** more likely to report a healthy and flexible workplace
